PROFESSIONAL SUMMARY

I am a data analyst at IBM. I'm a data analyst, currently working for IBM. I have 3 years of experience in Business Intelligence (Power BI, SSMS and Analysis Service), data analysis and cloud (Azure and AWS).

ACADEMIC BACKGROUND

Bachelor's degree in information systems

2018 - 2024

Universidade Federal Rural de Pernambuco, Recife, Brazil

EXPERIENCE AND QUALIFICATIONS

Data analyst at IBM

APR 2023- Present

No City, Brazil

In my current role, I develop high quality BI solutions for IBM's clients, by using SQL and Microsoft resources like power BI, Analysis Service and SQL Server Management Studio (SSMS). I Create SQL queries and DAX formulas that translates the costumer's will, inside an integrated environment.

Intern at IBM

MAY 2022 - APR 2023

Recife/PE, Brazil

In this internship I worked with JAVA, Apache Camel and RedHat openshift. I was responsible to do server migration, from TIBCO cloud to RedHat cloud.

Test engineer at CIn/Motorola Project

AUG 2021 - MAY 2022

Recife/PE, Brazil

As test engineer my responsibilities kept the same as before with some additional tasks, such as training new members of the team and doing time management activities.

Internship at CIn/Motorola Project

DEC 2020 - JUL 2021

Recife/PE, Brazil

I was part of the manual testing team, responsible for completing functional tests and reporting any errors found. Then I was moved to Compatibility Test Suit area, running automated tests and fixing some minor issues for achieving Google compliance.

Development internship for brazilian public law agency - PRFN

JUL 2020 - NOV 2020

Recife/PE, Brazil

At this internship I was responsible for automating manual processes that occurred in the browser, and assisting in decision making about tools that could facilitate this process. I used Node.js and some libraries like Puppeteer.js and Excel.js
